Due to changes at the Lycoming County Resource Management Services recycling center, effective August 3rd, 2026, any & all glass will no longer be accepted into the single stream recycling program. If there is any glass in the single stream your can will not be emptied. There will be no special pick ups after the glass has been removed, customers will wait until the next scheduled service day to be emptied. The municipal drop off sites will still be allowed to accept colored glass separated. To clarify any doubt go to www.lcrms.com or call 570-547-1870. We apologize for this unfortunate change.
